## Objective

Aspiring **Full Stack Developer** with hands-on experience in building responsive web applications using **Python (Django), React.js, JavaScript, and MySQL**. Skilled in both frontend and backend development, with a passion for solving problems, optimizing performance, and delivering efficient solutions. Seeking an opportunity to contribute to innovative projects while expanding technical expertise.

## Technical Skills

- **Frontend:** HTML, CSS, JavaScript, Bootstrap, React.js
- **Backend:** Python (Django, REST Framework)
- **Databases:** MySQL, SQLite, Firebase (basic)
- **Tools:** Git, GitHub
- **Soft Skills:** Problem Solving, Communication, Teamwork, Adaptability, Leadership

## Experience

### Android Developer Intern

Feb 2024 – July 2024

Coder Fuel Infotech Pvt. Ltd., Nagpur, Maharashtra

- Developed and deployed Android applications using Kotlin, XML, and Firebase.
- Built and tested real-world apps including a chat application, calculator, and BMI tracker, improving app responsiveness by 20%.
- Collaborated in an Agile environment, reducing debugging time by 30% through effective teamwork and problem-solving.

## Projects

### Phishing Website Detection using Machine Learning

Designed and trained ML models to identify phishing websites based on URL and content-based features, achieving high accuracy in detecting malicious activity.

### Full-Stack Employee Management System

GitHub

Developed a full-stack employee management system with React.js (frontend) and Django REST Framework (backend). Implemented CRUD APIs, integrated MySQL, and ensured smooth frontend-backend communication.

### To-Do Ninja

GitHub

Created a responsive task management web app using Django, HTML, CSS, and Bootstrap. Implemented task creation, update, and delete features with efficient backend models and views.

### Portfolio Website

Live — GitHub

Developed and deployed a personal portfolio website to showcase projects and skills, ensuring a professional and responsive UI.
